TRANSMISSION HD 75W

This gear oil is a mineral lubricating oil for mechanical transmissions, formulated with high quality solvent refined base oils and special EP-additives to obtain the following properties:

Performance

- API GL-5
- Mil-L-2105D

Features

excellent resistance against oxidation
a very high activity against wear, corrosion and foam
a low pour point
very good EP-properties

Applications

This gear oil is used in hypoid differentials under very heavy-duty conditions and should be used in all transmissions that require EP-transmission oils.
