

This gear oil is a mineral lubricating oil for mechanical transmissions, formulated with high quality solvent refined base oils and special EP-additives to obtain the following properties:

## **Performance**

• API GL-5

• Mil-L-2105D

## **Features**

excellent resistance against oxidation a very high activity against wear, corrosion and foam a low pour point very good EP-properties

## **Applications**

This gear oil is used in hypoid differentials under very heavy-duty conditions and should be used in all transmissions that require EP-transmission oils.

Characteristics	Unit	Average
Density at 15 °C	kg/l	0.876
Viscosity 40 °C	mm <sub>c</sub> /s	33.50
Viscosity 100 °C	mm <sub>e</sub> /s	5.50
Viscosity index		98
Flash point COC	°C	205
Pour point	°C	-40
